### ABOUT BETHANN TELFORD & TEAM BT

BethAnn Telford runs to help fight and bring awareness to brain tumors/cancers. She had her first brain surgery in 2005 and was told she would probably never run again. Well, after several marathons, two Ironmans and qualifying three times now for the Boston Marathon, she is determined to continue to run and raise money as long as she can for those that are unable due to this horrible disease, in hopes for a cure and reason to fight and never, never, never, give up!

In addition to all of BethAnn's fitness and training goals, she tries her best to advocate for research and medical breakthroughs to improve the quality of life for cancer patients. She has shared her story, helped raise more than \$300,000 for the annual Race for Hope - Washington, DC, by founding TeamBT and provided testimony to the US Food & Drug Administration on the behalf of new drug therapies in an effort to ensure patients and professionals gain access to the most innovative and promising treatment options. She was recently honored by the National Brain Tumor Society by awarding a BethAnn Telford Chair in Systems Biology grant, which will support the University of Florida's project targeting application of complex adaptive system approach to managing tumor populations. She hopes her courage, spirit, and energy are truly an inspiration to all.

# CHIP IN FORE A CURE

Chip in Fore a Cure  
**TEAM BT**  
April 20, 2012

INAUGURAL GOLF TOURNAMENT

Chip in Fore a Cure is a premiere fundraising event for Team BT as part of the Race for Hope - Washington DC 5K Run/Walk. Funds raised at this event will benefit the brain tumor community, with the proceeds supporting both the National Brain Tumor Society (NBTS) and Accelerate Brain Cancer Cure (ABC2).

Both NBTS and ABC2 are nonprofit organizations committed to finding a cure for brain tumors. NBTS aggressively drives strategic research, advocates for public policies that meet the critical needs of the brain tumor community, and provides patient information. ABC2 invests in research aimed at finding the fastest possible route to a cure.

For more information, visit: [www.TeamBT.org](http://www.TeamBT.org), call 703.371.9055, or email [BethAnn@TeamBT.org](mailto:BethAnn@TeamBT.org)
